In the British countryside, the Harver family head out on an idyllic summer camping trip where they can bury past tensions and enjoy some family bonding. Watch Escape from Cannibal Farm Online Free Escape from Cannibal Farm Online Free Where to watch Escape from Cannibal Farm Escape from Cannibal Farm movie free online Escape from Cannibal Farm free online The movie starts in the country side with a prank gone wrong causing deaths n then suddenly changes into another scene, a copy of Hills have Eyes kinda where a family head out on a camping trip to enjoy some family bonding that too far off in the same country side without any gadgets or phones. They land upon a farm where a deranged farmer n his deformed son stays alone and they kill people n sell off their meat to a mysterious meat eater.At a length of more than 100 min runtime, the film gets tedious n messy with too many subplots without any tension, suspense or character development. There is too much of unnecessary red color scenes which gets annoying, the kills r very few but there is unnecessary screaming.The effects r abysmal. A women's hand gets severed by a sword but she is busy chatting, that too without any blood flowing, a man gets burned in an oven but looks like covered in mud, a scalp gets sliced by a saw but very badly n poorly done. The hand electrocution scene is lol. A woman is able to capture many people in the cages, all alone n that too without any effort. And inspite of this she is shown asking the captives, "I hope that u guys have some family or kids missing you". Generous with 4 as the director is surely a big fan of Hills Have Eyes, TCM, etc. Also the twist is good regarding the reverend n the "other guy".
